What is the Settlement Hierarchy?

- 1.1 A settlement hierarchy is an order of settlements based on their size, range of services they provide for people and their relative role and function with Teignbridge District. The higher up the hierarchy you go the fewer settlements there are, but they increase in size in terms of population and number of services they provide, and the greater the role they play in the District. The resulting hierarchy tends to be pyramid in shape. Figure 3 illustrates the current established hierarchy in the Local Plan 2013-2033.
- 1.2 The assessment of a settlement's role and function and its place on the settlement hierarchy looks at a number of broad considerations:
 - **Where is the concentration of jobs, facilities and services** in relation to settlements.
 - **How well connected** are our towns and villages to employment, retail and leisure opportunities, particularly via alternative modes of travel than the private car, such as walking, cycling and public transport.
 - **How robust and vibrant are our communities**, are residents able to participate in community activities and meet their social needs.
 - **How self-contained are our towns and villages**. To what extent do they provide the opportunity to both live and work in the same area with access to facilities and services to meet the needs of the community? The greater the opportunity for residents to meet their day to day needs, the greater the level of self-containment.

Policy Context

National Policy and Guidance

- 2.1 National planning policy is set out within the [National Planning Policy Framework](#) (NPPF) 2012 and the accompanying [National Planning Practice Guidance](#) (NPPG). Combined they establish the broad policy framework which must be taken into account when preparing development plans such as the Local Plan.
- 2.2 The final Settlement Hierarchy Review will directly inform the Teignbridge Local Plan Review (2020-2040) and has taken into the consideration the following national policy and guidance:
- Contribute to the achievement of sustainable development (para 6 and 151)
 - Take account of the different roles and character of different areas, promoting the vitality of main urban areas, recognising the intrinsic character and beauty of the countryside and supporting thriving rural communities within it (para 17, point 5)
 - Actively manage patterns of growth to make the fullest possible use of public transport, walking and cycling, and focus significant development in locations which are or can be made sustainable (para 17, point 11)
 - Take local circumstances into account, so they respond to the different opportunities for achieving sustainable development in different areas (para 10)
 - Locate housing where it will enhance or maintain the vitality of rural communities (para 55)
 - Promote the retention and development of local services and community facilities in villages, such as local shops, meeting places, sports venues, cultural buildings, public houses and places of worship (para 28).
 - All settlements can play a role in delivering sustainable development in rural areas- and so blanket policies restricting housing development in some settlements and preventing other settlements from expanding should be avoided unless their use can be supported by robust evidence. (NPPG)

Greater Exeter Strategic Plan (GESP)

- 2.3 The [GESP](#) is a strategic plan being prepared jointly by East Devon, Exeter, Mid Devon and Teignbridge District Councils, in partnership with Devon County Council. It covers all of the four local authority areas, excluding Dartmoor National Park. By working together, the authorities are seeking to deliver the best possible outcomes for the provision of new homes, jobs and infrastructure for existing and future generations, while also protecting and enhancing the environment.

2.4 The GESP will set out strategic policies and proposals for building and land use in the Greater Exeter area up to 2040 and will include:

- The number of houses needed across the whole of the Greater Exeter area
- The amount of employment land needed across the whole of the Greater Exeter area
- Proposals for new strategic development (i.e. sites of over 100 homes or 2ha employment land in Exeter and 500 homes or 5ha employment land elsewhere)
- Targets for the remainder of housing and employment land to be delivered on smaller sites elsewhere in the districts. This will need to be planned through individual authority's Local Plans (e.g. the Teignbridge Local Plan Review)
- Policies for managing joint environmental issues, such as the Exe Estuary and an overall reduction in carbon emissions
- Proposals for new infrastructure to improve transport connections, internet speeds, health and education facilities.

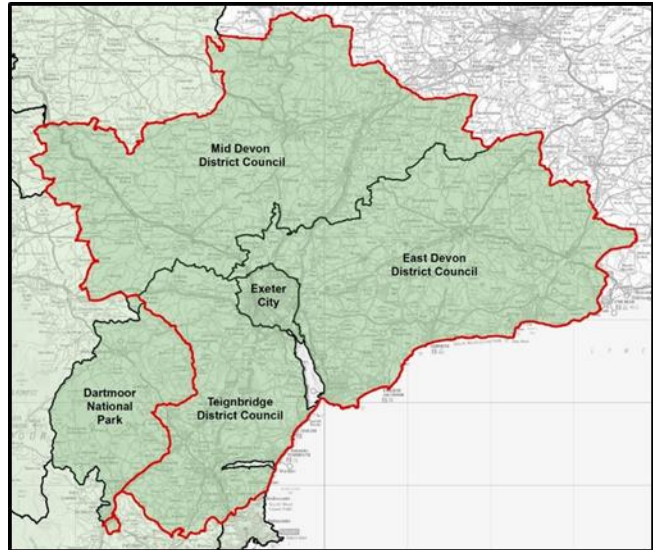

Figure 1: Greater Exeter Strategic Plan Area

2.5 The Greater Exeter Plan Area, as illustrated in figure 1, covers four district authorities. Exeter as the central economic and population centre of the GESP area will form the top tier of the Greater Exeter Strategic Plan hierarchy where the majority of strategic growth in the plan will be directed. The main urban areas of the district authorities, such as Newton Abbot, would form the second tier of the hierarchy as the economic and population centres on their respective districts. The GESP is anticipated to leave district Local Plans to direct the remaining level of growth, not strategically directed toward Exeter. District Local Plans will assign additional development requirements in line with their own settlement hierarchies.

Development Plans

2.6 A development plan provides the strategic direction for development and sets out policies upon which planning applications are determined. In Teignbridge, the development plan currently comprises the Devon Minerals Plan, Devon Waste Plan, the current adopted Local Plan 2013-2033 and five Made neighbourhood plans; Abbotskerswell, Bishopsteignton, Exminster, Ogwell and Newton Abbot.

2.7 The Local Plan does not cover Dartmoor National Park which has its own planning authority. The

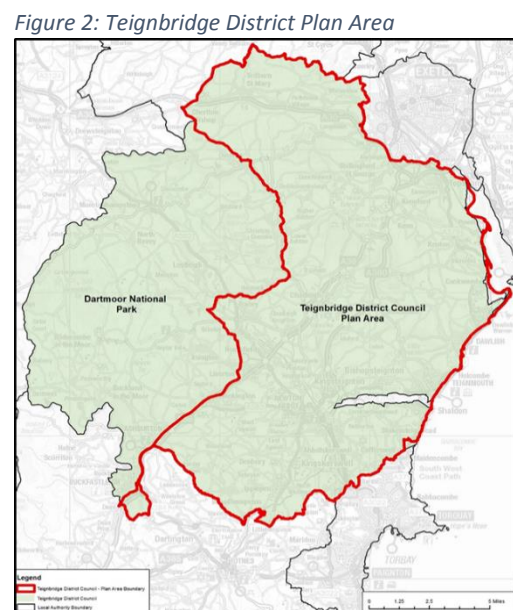

Figure 2: Teignbridge District Plan Area

Local Plan and this hierarchy review applies to the area identified as Teignbridge planning area in figure 2.

Existing Order of Settlements in Local Plan 2013-2033

- 2.8 The current adopted Local Plan 2013-2033 establishes the relative role of the District's settlements and places them in an order and attributes levels of residential growth in line with that order. It focuses development on the urban areas of Newton Abbot, Kingsteignton and Kingskerswell and the towns of Dawlish, Teignmouth, Bovey Tracey and Chudleigh as the most sustainable locations for new residents and workers.
- 2.9 The Local Plan establishes the existing settlement hierarchy illustrated in figure 3 and attributes a level of residential growth through allocations to the first two tiers as the most sustainable and self-contained locations in the District.
- 2.10 Teignbridge District spans up to the boundary with Exeter, with Exeter city centre standing approximately 4 kilometres from the northern boundary of the District. As noted in the GESP policy context above, Exeter stands as the most significant and sustainable location, with the greatest concentration of population, services, facilities and transport options in the Greater Exeter Plan Area. This close relationship between Exeter and areas on the northern boundary of Teignbridge, and the general sustainability advantages of this location, led to the allocation of the South West Exeter urban extension in the Local Plan. This area stands within the top tier of the hierarchy alongside The Urban Heart of Teignbridge.
- 2.11 The Urban Heart of Teignbridge includes Newton Abbot, Kingsteignton and Kingskerswell as the main urban area in district and stands at the top of the settlement hierarchy. They have the majority of the District's population, major employment locations, a busy town centre and the greatest level of housing need. Dawlish is home to 16% of the urban population and has significant housing need. Teignmouth has a similar size. Smaller towns of Bovey Tracey and Chudleigh have potential for meeting housing needs approximate to their scale.
- 2.12 The Local Plan establishes town centres as vital and sustainable locations for a range of development types including housing and employment. Newton Abbot is identified as the strategic town within the District where the majority of activity and development is expected. Dawlish and Teignmouth are designated as providing a supporting role with more local needs met in the smaller towns of Bovey Tracey and Chudleigh.
- 2.13 The urban area and towns are the focus for growth as the most sustainable locations in the district. Settlements outside these areas were not identified for specific allocations. However the Local Plan policies map identifies 19 villages which are considered appropriate locations for limited development which meets their social and economic needs, protects their rural character and is consistent with the need to minimise travel. These villages are defined by a settlement boundary and are identified as having close access to a shop, public house, village hall, school and daily public transport services. These villages are currently identified as defined villages in the third tier of the settlement hierarchy, illustrated on figure 3.
- 2.14 Settlements without a settlement boundary are not identified on the policies map and are considered undefined settlements within the open countryside where development

is strictly managed and are subject to countryside policies in the Local Plan, particularly policy S22: Countryside.

Neighbourhood Plans

- 2.15 The Made neighbourhood plans stand in conformity with national policy and the strategic policies of the Local Plan. The settlement hierarchy is a strategic matter for the Local Plan and Neighbourhood Plans have been developed based upon the existing hierarchy illustrated in figure 3.
- 2.16 Neighbourhood Plans are able to amend or establish a settlement boundary around a settlement within a designated neighbourhood area. However the establishment of a settlement boundary in itself would not amend that settlement's role and function or place within the hierarchy. Any increased role in the settlement hierarchy through the provision of additional services or an increased population would be assessed through regular Local Plan reviews in which Neighbourhood Plans will be a material consideration.
- 2.17 Information on services and facilities have been sourced from made Neighbourhood Plans and their evidence base and emerging Neighbourhood Plans where this information was publicly available.

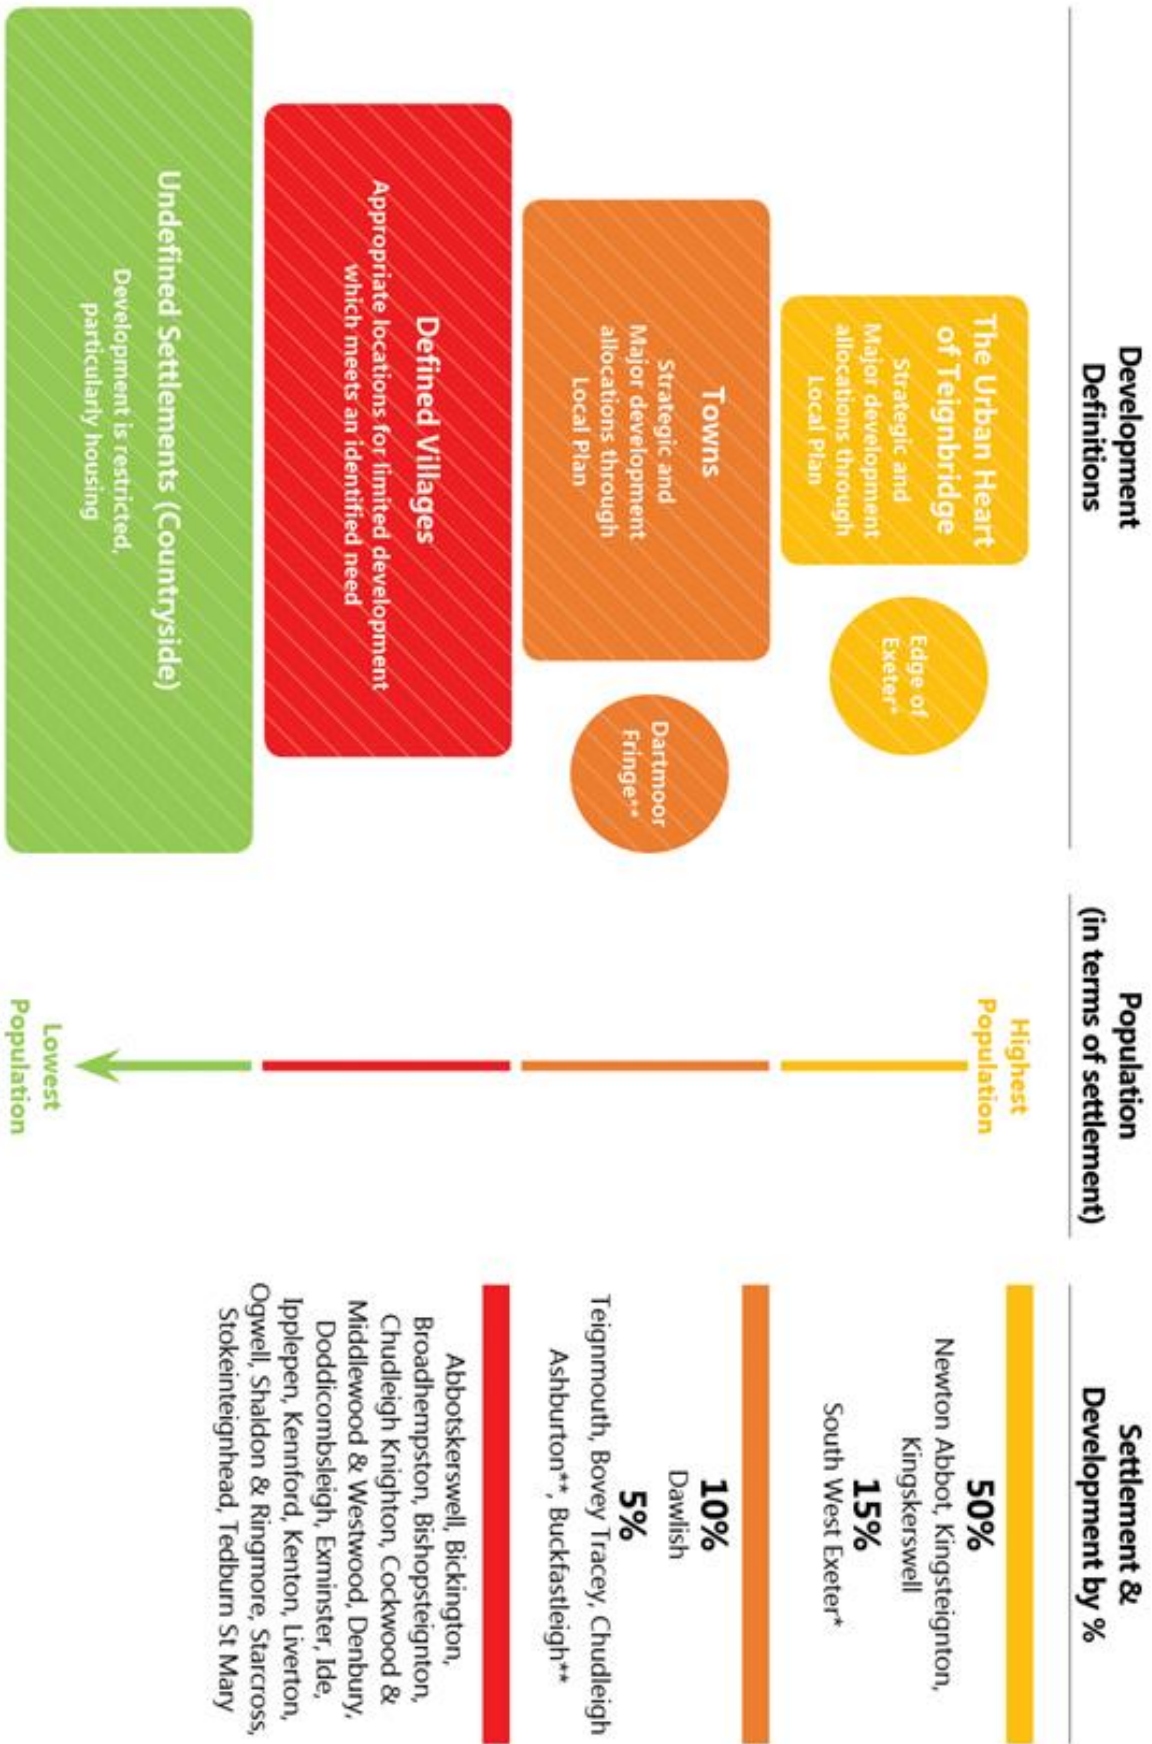

Figure 3: Existing Settlement Hierarchy

Background to Settlement Hierarchy

- 3.1 The development of the existing settlement hierarchy in the adopted Local Plan was drawn from a comprehensive review of settlement services, distance to significant employers, retail provision, population and their role in the district through the 2006 Settlement Hierarchy Paper. This paper informed the Teignbridge Core Strategy which was later superseded by the Local Plan 2013-2033. As part of the development of the Local Plan an updated review was undertaken identifying whether the presence or close access to the key services of shop, public house, village hall, school and daily public transport were still accurate.
- 3.2 The comparative findings of the 2011 and 2017 reviews are identified in appendix L
- 3.3 The 2011 Review examined the services of all the defined villages listed in figure 3 with the addition of the following settlements in figure 4.

Additional settlements reviewed in 2011	
Liverton/ /Cold East	Olchard
Hacombe	Pathfinder
Hestow Barton	Powderham
Higher/Lower Gabwell	Torbryan
Higher/Middle/Lower Rocombe	Woodland
Luton	
Netherton	

Figure 4: Additional settlements review in 2011

- 3.4 Information was sourced through Town and Parish Council surveys requesting information on the number and type of services and facilities in their parish. This was combined and confirmed through site visits and additional data sources including:
- Online Bus timetables
 - Information from Primary Care Trusts, and
 - Post office website.

Methodology

- 4.1 In light of the previous hierarchy review methodology all Parish and Town Councils were requested to complete a settlement facilities survey which sought to gain local insight and provide a snap shot in time as what was available in each settlement. A copy of the survey is available in **Appendix K: Settlement Service Review Form**.
- 4.2 Not all Parish and Town Councils responded to the questionnaire so this information source has been supplemented by a range of additional data sources including officer site visits where required. The facilities surveys were returned between 31 July 2017 and 28 August 2017 and included the following information:

Convenience store	Pharmacy	Public House
Community/village Hall	Health Centre/Doctors	Pre-school/ Nursery
Bank	Petrol Station	Additional services and facilities
Post Office	Place of Worship	Mobile signal/coverage
Cash Machine	Allotments	Broadband speeds
Dentist	Community Orchard	

Identification of services

- 4.3 The previous hierarchy review identified a range of services and facilities upon which it based its recommendations. These have largely been replicated within this review. However these have been refined to take account of larger changes in society such as the increasing reliance on high speed internet and a good mobile connection.
- 4.4 This hierarchy review has identified the following features which have informed the recommendations for a revised settlement hierarchy in the Local Plan Review 2020-2040.

Bank	Significant local employment opportunities within 5 km	Peak hours public transport service to significant employment opportunity
Community Hall/ Centre	Place of worship	Frequent public transport service to towns / local service centres
Convenience Store	Post Office	Average Broadband Download Speeds
Cycle route provision to nearest town or local service centre	Public House	Averaged mobile outside mobile coverage
Dentist	Rail Station	Health centre/ doctors facility

Dispensary/Pharmacy

Nursery / Pre - school

Primary School

Library

School (Secondary)

Figure 5: Services identified through review

4.5 These have been broken down into six categories to understand a settlement's degree of self-containment, the ability of residents to meet day to day needs in addition to being able to access employment, retail and education provision in the town or village and nearby settlements.

- Connectivity
- Accessibility
- Access to significant employment opportunities
- Health and Education
- General Services and Facilities
- Retail provision

Connectivity

Broadband

4.6 Broadband is a high-speed internet connection which is never switched off and can be accessed at any time and replaces old dial-up connections. A broadband internet connection can vary in its speed both in terms of upload and download speeds which are measured in mega bits per second or Mbps. The higher the speed, the greater the capacity a household or business has in the type of uses it can undertake at one time on the internet and the number of devices being used at once.

4.7 The ability to access superfast broadband significantly increases a business/household's upload and download speeds. Ofcom defines superfast broadband download speeds 30 Mbps or above.

4.8 The ability to access broadband and superfast broadband, (depending on the upload and download speed), enables a range of internet connected devices such as laptops, mobile phones, tablets and games consoles to be used simultaneously. It provides the opportunity to use bandwidth intensive services such as Netflix, BBC iPlayer and streamed music services, creates greater homeworking opportunities and provides access to a range of services and products for home delivery.

4.9 A greater level of broadband connectivity can increase a settlement's level of self-containment and overall sustainability and this has been identified through the Review.

4.10 This data has been derived from Ofcom, which provides an address and postcode specific tool which identifies the available download and upload speeds within that area. <https://checker.ofcom.org.uk/broadband-coverage.1>

4.11 Ofcom also identifies whether a postcode has standard, superfast or ultrafast broadband speed availability. Ultrafast broadband availability was not a feature of the district broadband available options.

¹ Accessed 27.07.17

4.12 For the urban areas a wide selection of postcodes were selected across a range of the built up area of those settlements and just beyond to gain a balance between gaining as full range of postcodes as possible and time resourcing. For the more rural settlements all relevant postcodes have been selected for their broadband availability. Assessing broadband speeds at an individual addresses level would have been unrealistic and disproportionate. This assessment is designed to provide a general indication on a settlement's average broadband availability and speed.

4.13 The assessment of average available broadband speeds for postcodes across the District are available in [Appendix I1: Average Settlement Broadband Speeds](#).

Mobile Connectivity

4.14 Ofcom provides an address and postcode specific tool which identifies the available service provider and likely coverage within that area:

<https://checker.ofcom.org.uk/mobile-coverage>

4.15 Ofcom identifies whether Voice, data (3G) and Enhanced Data (4G) services are available and the quality of their connection for specific postcodes and addresses for both indoor and outdoor signal coverage for the four services providers of EE, O2, Vodafone and Three. Other mobile service providers which are not listed will utilise one of the above networks.

4.16 This data has been recorded for the identified postcodes in relation to outdoor coverage only, as recording the coverage for every single address in the District would have been disproportionate. Each provider's available service is identified in green for good coverage, amber for potential poor connection and red for no service or service unlikely. This data is available in appendix J.

Accessibility

Bus

4.17 Buses play an important role in community life, social cohesion and the sustainability of a settlement. They provide residents with an alternative to the private car to access education, employment, retail and services. They can often be the only transport option for those who don't drive, have disabilities or live in remote areas. They promote positive interactions between members of the community and the degree of availability and frequency in a settlement's bus service provision has been assessed through this Review.

4.18 Information on bus routes, main stops and frequency have been sourced from Travel Devon at:
www.devonbustimetables.info/teignbridge_new/files/assets/common/downloads/publication.pdf

4.19 The more frequent a bus service, especially to centres of employment, retail and services, such as healthcare and education, the more sustainable and accessible a settlement should be considered.

- 4.20 The ability to access work opportunities via the bus during standard working hours ²is considered an important aspect of sustainable communities and this has also been identified through the Review.
- 4.21 The first bus to pick up in the settlement and the last bus which drops off in the village from the end destination have been identified to indicate whether commuting from the settlement to a significant place of employment or service centre, such as an industrial estate, retail park or centre or main urban area, is a viable option.
- 4.22 This information has been summarised in **Appendix E1: Bus Data- Urban Area**.

Bicycle

- 4.33 Traffic free cycle routes can provide a healthy, accessible alternative to the private car or public transport to gain access to key services, retail provision and employment locations. There are many personal and environmental benefits to cycling and the Review has identified a settlement's access to the above via a traffic free cycle route as a preferred alternative to the private car and where other advisory cycle routes are available.
- 4.44 Route information has been sourced from Devon County Council's Sustrans interactive cycle route map which can be accessed here:
<https://fourpointmapping.sustrans.org.uk/devoncyclemap/devon.html>
- 4.45 A settlement's accessibility via bicycle provision is summarised in **Appendix F: Settlement Cycle Route Access** and provides commentary of the type of bicycle route and its destinations.

Train Station/Rail Link

- 4.46 The availability of a train station and rail link to a settlement can significantly increase its connectivity and sustainable travel options. The train is a more environmentally friendly option than the private car and provides direct access to a main urban area with centres of retail, employment and services. It not only provides connections to local urban centres such as Newton Abbot and Exeter but also to the wider national rail network.

Access to Significant Employment Opportunities

- 4.47 The ability of residents to access a range of employment opportunities within walking distance, via public transport or through dedicated cycle routes increases a settlement's relative sustainability. Close access to employment locations via the trunk and primary road network increases a settlement's connectivity providing employment opportunities to residents within a relative short drive from home.
- 4.48 The previous reviews examined the relationship of settlements with significant employers. In line with the need to minimise travel and support and increase self-containment this relationship has been reassessed and expanded upon. The significant employment locations have been based on those included in the [Teignbridge Employment Land Review](#) and those listed as key business locations in

² 9am to 5pm

the district on the [Council's website](#). However in recognition of additional significant employment locations which draw Teignbridge residents to areas outside the district a number of key locations have been added. Figure 6 below identifies all those employment locations which were included in the assessment.

Aller Mills		Brunel Industrial Estate	Decoy Industrial Estate
Aller Vale Buildings		Buttlands Industrial Estate	Greenhill Industrial Estate
Bradley Lane		Coventry Farm Estate	Heathfield Industrial Estate
Broadmeadow Estate	Industrial	Dart Mills	Ipplepen Business Park
Station Yard Business Park		Dawlish Business Park (Shutterton)	Olympus Trading Estate
Peamore Truck Centre		Pottery Road	The Old Cider Works
Blue Water Industrial Estate		Rydon Industrial Estate	Wharf Road
St Johns Lane		Sandygate Business Park	Marsh Barton Trading Estate
Chuley Road Industrial Estate		Mardle Way Industrial Estate	Gidley's Meadow Industrial Estate
Swift Industrial Estate		The MET Office	Torquay Town Centre
Teign Road		Exeter Science Park	The Willows
Bulleigh Barton Farm		Exeter Sky Park	Newton Abbot Town Centre
Exeter City Centre		Royal Devon & Exeter Hospital	Totnes Town Centre
Torbay Hospital		Trago	

Figure 6: Significant Employment Locations

- 4.49 Distance to those significant employment locations have been identified utilising google maps driving directions with distance measured in kilometres from the settlement to the postcode of the significant employer. Those employers within approximately 5km of the settlement via road (approximately a 10 minute drive) have been identified for the purpose of this review.

Health and Education

Health Centre/Doctors Surgery

- 4.50 A local doctor's surgery, particularly within walking distant, is a significant benefit to a town or village, providing healthcare within a short distance from home. This is a particular advantage for the elderly and those with young children who are more likely to use this service and may find accessing facilities further afield more difficult. A doctor's surgery or health centre creates a greater level of self-containment for a settlement which is further reinforced with an accompanying pharmacy or dispensary.

- 4.51 Two health authorities administer to Teignbridge District, NHS Northern, Eastern & Western Devon Clinical Commissioning Group and, South Devon and Torbay Clinical Commissioning Group.
- 4.52 A list of health centres and GP practices has been sourced from these clinical commissioning group and summarised in [Appendix B: Doctors Surgeries in and adjacent Teignbridge](#)

Dentist

- 4.53 A dentist is considered a higher-order service which is usually located in larger towns and villages. Access to a dentist within walking distance can reduce the need to travel and increase levels of self-containment.
- 4.54 Dentists have been identified through the returned Town and Parish questionnaires, officer site visits and a desktop review.

Education Provision

- 4.55 Town or village schools are centres of community life and activity. They provide for the educational needs of our children but also encourage social interaction between parents. They can be a focus for social activity and increase social cohesion. A school within walking or cycling distance reduces the need to travel by car or public transport and provides opportunities for improved health and well-being in addition to being more convenient for local families. The greater the range of education provision in a town or village, the greater their level of self- containment with residents able to meet their education needs in their local area.
- 4.56 Primary and secondary education provision has been sourced from [Devon County Council](#).
- 4.57 This information source identified some pre-schools but not all, so this information has been supplemented by Parish and Town council responses, desktop review and officer site visits.
- 4.58 A list of identified primary and secondary schools is listed in [Appendix G: Teignbridge Schools](#)

Library Provision

- 4.59 A library can provide opportunities for the community to improve their skills, access a range of reading and reference materials and to interact with other community members.
- 4.60 A library site is a fixed library facility which is considered a higher order service that is usually only found in towns and cities. A mobile library service is also provided to a number of villages, usually on a monthly basis. Whilst a useful service to the

community they tend to lack the range of facilities and reading materials compared against a fixed library facility.

- 4.61 Library facilities and mobile library services have been sourced from Devon County Council. www.devon.gov.uk/yourmobilelibrary and are available in **Appendix C1: Mobile Libraries Timetable** and **Appendix C2: Teignbridge Library Sites**.

General Services and Facilities

- 4.62 General services and facilities include:

- Congregational spaces
- Places of worship
- Banking services
- Post office
- Public house

- 4.63 Village halls and community centres provide important spaces for people to engage in social activities. Places of worship can also act as focal points for village life. Banking services and or a post office can increase a village's self-containment by reducing the need to get into the car for simple postal and financial transactions. Public houses can provide opportunities from informal social interactions and social activities.

- 4.64 Post office locations have been sourced from the [Post Office Branch Finder](#) and are listed in appendix D.

- 4.65 Other general services and facilities have been sourced from the returned town and parish questionnaires, officer sites and a desktop review including the Town Centre Health Checks.

- 4.66 The general services and facilities of towns and villages are identified in the service overview in **Appendix A1: Service Overview- Urban Area**

Retail Provision

- 4.67 The greater range of retail provision within an accessible distance, preferably by foot or bicycle, meets a greater range of needs without needing to travel to larger service centres such as Exeter.

- 4.68 The range of uses for the urban area and our towns has been taken from the annual Town Centre Health Check which is reported in the [Annual Monitoring Report](#). The full list of the uses within the district's town centres from the 2017 Town Centre Health Check are available in **Appendix M1: Newton Abbot Town Centre Uses**.

- 4.69 The range of retail uses in the villages of the District has primarily been sourced from the returned town and parish questionnaire but supplemented with officer site visits, Neighbourhood Plans and a desktop review.

- 4.70 The Review has identified the following retail categories:

Retail Categories in the Review	
Convenience shop	Florist
Food stores	Hairdressers/beauty salons
Takeaways	DIY/Household goods
Clothing and charity shops	Café/restaurants/delicatessens
Veterinary Practice	Crat/art store

Figure 7: Retail Categories

Summary of Findings & Recommendations

Change in Services since 2011

- 5.1 **Appendix L: Service Comparison 2011 Vs 2017** summaries the service comparison between 2011 and 2017 in relation to a village hall, shop, public house, primary school and daily public transport services.
- 5.2 In the context of villages with a settlement boundary and identified as defined villages in the Local Plan, only one village had lost a service. Denbury has lost an existing shop but the local pub does provide some limited convenience goods. Starcross has gained a village hall which provides additional opportunities for the local community to meet.
- 5.3 In the context of villages without a settlement boundary, considered as undefined villages in the countryside in the Local Plan, Ashcombe's village hall was not previously identified through the 2011 review. High/Lower Ashton had a shop and village hall previously recorded which weren't identified through this review.

The Urban Area

- 5.4 The previous role of Newton Abbot, Kingskerswell and Kingsteignton as the District's principal urban area has been identified through the current and previous Local Plans.
- 5.5 The hierarchy update has re-examined their role and function using the data identified above and summarised below.
- 5.6 The close relationship of these settlements creates a continuous urban form with good connections and is collectively defined as the Urban Heart of Teignbridge. This urban area is the focus for the District's population as illustrated in figure 8.

Settlement: Urban Area	Population (2011 Census)
Newton Abbot	24,029
Kingsteignton	10,451
Kingskerswell	5,767

Figure 8: Urban Settlement Population

- 5.7 The Urban Heart of Teignbridge is the focus of the District's employment, retail, leisure and educational opportunities with good connections to urban centres outside the district such as Exeter, Plymouth, Totnes and Torbay. It is situated with close access to A380 providing good access to the M5 motorway and benefits from a main line rail link providing alternative travel options to the private car.
- 5.8 Newton Abbot town centre accommodates a number of banks and building societies and a high concentration of restaurants and takeaways. There is also a large ASDA supermarket in the town centre and a large Sainsbury's at Penn Inn roundabout, which serve a wide catchment for convenience goods shopping, with an additional Aldi supermarket recently receiving planning permission. This range is supplemented by a

large Tesco supermarket with a wide catchment and a Lidl supermarket in Kingsteignton. Kingsteignton also benefits from an out of centre shopping park for comparison goods including Homebase, B & Q, Matalan, Brantano and Halfords providing a wide draw to residents in other towns and villages.

5.9 Since the 2011 review Kingsteignton has received a new retail park which includes Costa Coffee, Boots, Hobbycraft, Pets at Home, Next and Home Bargains adding to the wider draw and appeal of the urban area. These units all serve to reinforce Kingsteignton and the wider urban area's sub regional retail role.

5.10 The urban area has a wide range of higher-order services and facilities both within the town centre and distributed around its residential areas including:

- A number of primary and secondary schools
- A higher education college
- A number of dentists
- At least four health centres or doctors surgeries
- A community hospital, and
- Three libraries.

5.11 The range of higher order services ensures the urban area has a very high level of self-containment with residents able to meet their day to day needs.

5.12 Our urban area is well connected through good outdoor mobile coverage for voice, 3G and 4G services for the range of service providers with the majority of postcodes also able to access to superfast broadband.

5.13 The settlements comprising the urban area are home to the majority of employment opportunities in the District with three significant employment locations in Kingskerswell, four in Kingsteignton and ten in Newton Abbot. These stand in addition to employment opportunities within the retail, leisure and educational sectors and accessible transport options to other larger centres in Exeter, Plymouth and Bristol. The urban area has the highest concentration of jobs in the District. A dedicated cycle route is also available from Newton Abbot to Heathfield Industrial Estate.

5.14 This Settlement Hierarchy Review recommends that Kingskerswell, Kingsteignton and Newton Abbot remain as the Urban Heart of Teignbridge at the top of the settlement hierarchy. This reflects the location of the majority of the District's population and its focus for employment, retail, leisure and educational provision for the wider district. The area is very accessible and well connected with very high levels of self-containment and sustainability.

5.15 The urban area has its role and function defined below:

Principal Service centre for the District and home to the majority of the District's population. A town of district-wide importance for retail, leisure, public administration and services, with excellent public and private transport links and superfast broadband access to the majority of residents.

Towns

- 5.16 The Local Plan identifies the District's towns as **Dawlish, Teignmouth, Bovey Tracey** and **Chudleigh**, in addition to Ashburton and Buckfastleigh which stand outside Teignbridge planning area.
- 5.17 The settlements form the second largest group of settlements in terms of population with each town's population identified in figure 9.

Settlement: Towns	Population (2011 Census)
Dawlish	13161
Teignmouth	17845
Bovey Tracey	8055
Chudleigh	6291
Ashburton & Buckfastleigh	7830

Figure 9: Population of Towns

- 5.18 Ashburton and Buckfastleigh stand outside the Teignbridge planning area but their close proximity to other settlements, accessibility via the bus and the A38 and range of service and retail provision provides a draw to Teignbridge residents. It is not for the Local Plan to amend a settlement hierarchy applicable to Dartmoor National Park but its level of service and facility provision has been recorded in **Appendix A3: Service Overview- Ashburton & Buckfastleigh**.
- 5.19 Our towns are well connected to centres of employment, retail and leisure opportunities which are situated within the town or in close proximity. Teignmouth and Dawlish are situated on the A379 which is a primary route through the District and links these towns with Exeter and Newton Abbot. Chudleigh, Bovey Tracey, Ashburton and Buckfastleigh all stand on the A38 which is a trunk road running through the county, proving good links to Exeter and Plymouth. More sustainable travel options are provided through a rail link to Newton Abbot, Exeter and the wider rail network at Dawlish and Teignmouth. In addition each town has a daily, half hourly bus service to centres of retail, employment and leisure. These services largely enable residents to access employment opportunities via public transport during standard working hours. Bovey Tracey also has the advantage of a cycle route to Heathfield Industrial Estate with further links to Newton Abbot. Dawlish also has the advantage of a dedicated cycle route to Dawlish Business Park and further links to Exeter.
- 5.20 Our towns are also well connected through good outdoor mobile coverage for voice, 3G and 4G services for the range of service providers with the majority of postcodes also able to access to superfast broadband.
- 5.21 These factors combined create four towns (and two in Dartmoor) which are considered to be well connected to employment, retail and leisure opportunities, with Dawlish and Teignmouth being particularly well connected as a result of their rail link.
- 5.22 Ours towns continue to provide a focus for jobs, services, facilities and retail and leisure provision, providing a range of opportunities for the local community to meet

their day to day needs without having to leave the area. Our towns provide the full range of services including higher-order services such as a doctors/health centre, pharmacy, dentist, library site with Dawlish and Teignmouth also providing secondary education opportunities. Dawlish and Teignmouth also have close access to large supermarkets with Morrison's at Teignmouth and Sainsbury's for Dawlish.

- 5.23 The four towns in Teignbridge all have defined town centres where retail and leisure opportunities are focused but the range and mix of uses within these town centres varies.
- 5.24 Teignmouth and Dawlish have the largest town centres (outside Newton Abbot) and greatest concentration and range of uses including multiple convenience stores and smaller stores such as greengrocers, florists and bakeries. They have a number of hairdressers, barbers and beauty salons and wide selection of restaurants and takeaways. They also have a number of gift shops, craft stores and antique shops which largely reflects their coastal tourist location.
- 5.25 Bovey Tracey and Chudleigh have smaller town centres than Dawlish and Teignmouth with a fewer number of services but with a good range to meet resident's needs. They include greengrocers, a selection of take-always, cafes and restaurants. At least two hairdressers each, coffee shops and charity shops.
- 5.26 Our towns also serve as local concentrations of jobs or stand in close proximity to employment opportunities both through their town centres but also through significant employment locations. Dawlish stands within 5km of Dawlish Business Park and Station Yard and Teignmouth within 5km of Broadmeadow and Station Yard Industrial Estates. Bovey Tracey benefits from close access to Heathfield Industrial Estate and is within 5km of Bluewater and St Johns Lane Industrial Estates. Chudleigh is the exception standing approximately 7km from Heathfield and Sandygate Industrial Estates but easy access to the road network is provided through the A38 and half hourly bus services.
- 5.27 Our towns are still considered to have a concentration of services and facilities, retail and employment opportunities in the District.
- 5.28 The town centres provide a focal point for community life and social interaction providing opportunities for informal interactions. These are also provided through a variety of community centres/halls for more formal social gatherings, or public houses for more informal meetings. This good range of spaces enable residents to participate in community activities and improve community cohesion and create robust and vibrant places to live and work.
- 5.29 Our towns provide high levels of self-containment with residents able to access nearly all of their day to day needs within the local area. They largely have employment locations within close proximity and have good access to other significant employment locations via alternative modes of transport to the private car. They have the second highest combined populations in the District with multiple opportunities to engage in community life.

5.30 This Settlement Hierarchy Review recommends that the Teignmouth, Dawlish, Bovey Tracey and Chudleigh remain as Towns, in the second tier of the hierarchy. This reflects their concentration of population, services, facilities, and retail and employment opportunities. They have high levels of self-containment and sustainability and also serve the needs of residents in nearby villages.

5.31 These settlements have their role and function defined below:

A key service centre which provides a good range of services, facilities and retail provision to meet the needs of residents and serves a wider catchment to surrounding villages and areas. Towns have good public transport links and are situated close to the District's primary roadways enabling good access to urban areas. They are home to a significant proportion of the District's population and have close access to employment opportunities.

Defined Villages

5.32 Settlements identified by the Local Plan as Defined Villages are illustrated in figure 10 alongside population figures.

Settlement	Population (2011 Census)	Settlement	Population (2011 Census)
Abbotskerswell	1560	Ide	526
Bickington	336	Ipplepen	2469
Bishopsteignton	2570	Kennford	987
Broadhempston	672	Kenton	1114
Chudleigh Knighton	1125	Liverton	N/a
Cockwood/Middlewood/ Westwood	349	Shaldon/Ringmore	1762
Denbury	918 (inc. Torbryan)	Starcross	1737
Doddiscombesleigh	290	Stokeinteignhead	703
Ogwell	467	Tedburn St Mary	703
Exminster	3616		

Figure 10: Defined Village Population

5.33 These villages are identified as having the presence or close access to the key services of shop, public house, village hall, school and daily public transport through the Local Plan.

5.34 The review of services and the comparison with the findings in 2011 are illustrated in **Appendix L: Service Comparison 2011 Vs 2017**.

5.35 It notes a number of anomalies in the presence of services within these villages including:

- No shop in Bickington, Cockwood/Middlewood & Westwood, Doddiscombesleigh and East Ogwell.
- No public house in Bickington
- No village hall in Doddiscombesleigh
- No school in Bickington
- Limited public daily transport provision in Broadhempston and Stokeinteignhead.

5.36 These have been addressed in more detail below, particularly relating to their relationship with accessible services in nearby villages and towns. The remainder of the villages have the presence of a shop, public house, village hall, school and daily public transport.

5.37 In addition to these anomalies some settlements within the Defined Villages tier of the existing hierarchy had a greater range of services, better mobile and broadband

connectivity and greater connections to urban areas and centres of retail and employment than other settlements in the same category. These settlements demonstrate greater levels of sustainability and self-containment than other villages.

5.38 The villages which are considered to have a greater role and function than other Defined Villages are listed and defined below:

- Bishopsteignton
- Exminster
- Ipplepen
- Starcross, and
- Tedburn St Mary

Bishopsteignton

5.39 Bishopsteignton has the full range of services required for a defined village of a shop, public house, village hall, a primary school and daily public transport. However it also has a doctor's surgery and pharmacy, and a pre-school, creating high levels of self-containment where residents can largely meet their day to day needs within walking distance, such as buying bread and milk or visiting the doctor and picking up medication. The village is situated on a primary route through the District providing easy access to the main urban area of Newton Abbot with its range and mix of retail, employment, leisure and education opportunities. The village also benefits from a half hourly bus service to Newton Abbot and Exeter with residents able to commute to work during normal working hours. The majority of residents have access to superfast broadband. These factors increase the degree of self-containment and sustainability of Bishopsteignton compared to other settlements in the same category.

Exminster

5.40 Exminster has the full range of services required for a defined village of a shop, public house, village hall, a primary school and daily public transport. However it also has a doctor's surgery and pharmacy, a pre-school, and a dentist creating high levels of self-containment where residents can largely meet their day to day needs within walking distance, such as buying bread and milk or visiting the doctor and picking up medication. The village is also situated in close proximity to the main urban area of Exeter, significant employment location of Marsh Barton and recently approved employment scheme at Peamore. The proximity to Exeter provides a significant range of employment, retail, educational and leisure opportunities to residents. These can be accessed through a regular half hourly bus service providing opportunities to commute to work during standard working hours or via dedicated cycle routes creating alternative, more sustainable travel options than the private car. The majority of residents have access to superfast broadband. These factors combined, increase the degree of self-containment and sustainability of Exminster compared to other settlements in the same category.

Ipplepen

5.41 Ipplepen has the full range of services required for a defined village of a shop, public house, village hall, a primary school and daily public transport. However it also has a

doctor's surgery and dispensary, and a pre-school, creating high levels of self-containment where residents can largely meet their day to day needs within walking distance such as buying bread and milk or visiting the doctor and picking up medication. The village is also situated on a primary route through the District providing easy access to the main urban areas of Newton Abbot and Totnes with its range and mix of retail, employment, leisure and education opportunities. The village also benefits from a half hourly bus service to Newton Abbot and Totnes, with an additional service to Exeter. Residents are able to commute to work during normal working hours and the majority of residents have access to superfast broadband. These factors increase the degree of self-containment and sustainability of Ipplepen compared to other settlements in the same category.

Starcross

- 5.42 Starcross has the full range of services required for a defined village of a shop, public house, village hall, a primary school and daily public transport. However it also has a doctor's surgery and pharmacy, and a pre-school, creating high levels of self-containment where residents can largely meet their day to day needs within walking distance such as buying bread and milk or visiting the doctor and picking up medication. The village is also situated on a primary route through the District providing easy access to the main urban areas of Newton Abbot and Exeter and to Dawlish with their range and mix of retail, employment, leisure and education opportunities. Residents have a range of alternative travel options to the private car including a dedicated cycle route to Exeter and a half hourly bus service to Newton Abbot and Exeter, in addition to a train station providing rail links to Exeter and Newton Abbot and the wider national network which provide opportunities to commute to work during standard working hours. These options increase the relative sustainability of Starcross compared to other settlements in the same category but this is tempered by a lack of superfast broadband to residents and slow average broadband speeds.

Tedburn St Mary

- 5.43 Tedburn St Mary has the full range of services required for a defined village of a shop, public house, village hall, a primary school and pre-school and daily public transport. It also has a doctor's surgery on the outskirts of the village. The village is situated on the A30 providing a vital artery through South West enabling easy access to Exeter and Plymouth with its range and mix of retail, employment, education and leisure opportunities. The village also benefits from an approximate hourly bus service to Exeter with residents able to commute to work during normal working hours. The majority of residents have access to superfast broadband with good outdoor mobile coverage. These factors increase the degree of self-containment and sustainability of Tedburn St Mary compared to other settlements in the same category.
- 5.44 This Settlement Hierarchy Review recommends that the above five settlements with their greater role and function, higher levels of sustainability and self-containment should be placed within their own category of settlements within a revised settlement hierarchy.**

5.45 This additional category has been titled **Main Villages** with the following defined role and function:

Predominately residential areas which provide a limited but reasonable range of services to the local community, including at least a school, doctor's surgery, public house, convenience store and village hall. They benefit from good mobile and broadband connectivity and are accessible via the District's primary routes, which combined with regular bus services, provide good access to larger towns and areas of employment.

5.46 This leaves a total of 14 defined villages with a settlement boundary which haven't been recommended to be placed within a Main Villages category:

- Abbotskerswell
- Bickington
- Broadhempston
- Chudleigh Knighton
- Cockwood/Middlewood/Westwood
- Denbury
- Doddiscombesleigh
- Ogwell
- Ide
- Kennford
- Kenton
- Liverton
- Shaldon/Ringmore
- Stokeinteignhead

5.47 These villages were also assessed for the availability and proximity to the key services of a shop, public house, village hall, school and daily public transport, alongside other considerations such as broadband and mobile connectivity.

5.48 The Review identified the presence of or close proximity of these service to the above villages, with most fulfilling the definition. There are a number of exceptions which are explored below:

- All of the above settlements had a public house which provides the opportunity for the community to meet informally with all of the above settlements also having a village hall with the exception of Doddiscombsleigh.
- Doddiscombsleigh alongside Bickington do not have a shop or close access to one within walking distance which creates an increased reliance on the private car. Bickington, unlike the other listed Defined Villages doesn't have a primary school with the nearest standing approximately 3km away. Bickington does have good access to the A38 and a short drive from a range and mix of retail, employment, leisure and educational opportunities in Ashburton. Doddiscombsleigh however is only accessible via rural roads.
- The villages of Cockwood/Middlewood & Westwood and Ogwell also do not have a current shop however there are currently two vacant shop units in Ogwell. Ogwell also has close access to the main urban area of Newton Abbot. The villages of Cockwood/Middlewood & Westwood stand in reasonable proximity to Starcross at approximately 1.5 km, accessible via a dedicated cycle route, providing residents a greater range of services.

5.49 All of the above villages were identified as relying on larger settlements to some degree or another to meet their day to day needs but all villages provided at least a place for the community to congregate, interact and hold community events which assist in community cohesion. All villages, with the exception of Stokeinteignhead have a daily bus service but the frequency varies, particularly in the rural south and north western areas of the District.

5.50 This Settlement Hierarchy Review recommends that the above 14 settlements with their more limited role and function than the urban area, towns and main villages be placed into their own category within a revised settlement hierarchy.

5.51 This revised category has been titled **Villages** with the following defined role and function:

Predominately residential areas which provide a basic range of services to the local community including a place for the community to meet via a community hall, public house or place of worship. Villages are largely reliant on larger settlements for the majority of their needs but access can be more limited with a less regular bus service creating reliance on the private car. Access to these settlements varies between rural roads and the District's primary routes

Undefined Settlements

5.52 The Local Plan does not identify small villages and hamlets within the rural area and instead includes them within the definition of countryside. The Local Plan does not list these settlements and does not identify them with a settlement boundary.

5.55 A number of small villages and hamlets within the rural area were identified through the previous review and these have been supplemented with a number of others known to officers. This evaluation of their services ensures that their role and function accurately relates to their current position on the settlement hierarchy on the lowest, tier. This indicates these villages and hamlets are the least sustainable and have low levels of self-containment amongst those in the District.

5.54 The undefined settlements which are assessed through this Review are listed in figure 11.

5.55 These villages have services limited to a village hall, public house, place of worship, mobile library, pub and a shop as summarised below:

	Village Hall	Mobile Library	Place of Worship	Public House	Shop	Superfast Broadband
Ashcombe	yes	No	yes	No	No	No
Coffinswell	No	No	yes	Yes	No	No
Combeinteignhead	Yes	Yes	Yes	Yes	No	No
Dunchideock	Yes	Yes	Yes	No	No	Yes

Hacombe	No	No	Yes	No	No	No
Holcombe	Yes	No	Yes	Yes	Part time	No
Higher/Lower Ashton	No	Yes	No	Yes	No	No
Higher/Lower Gabwell	No	Yes	No	No	No	No
Higher/Middle/Lower Rocombe	No	No	No	No	No	No
Ideford	Yes	Yes	Yes	Yes	No	No
Kenn	Yes	Yes	Yes	Yes	No	Yes
Longdown	No	No	No	Yes	No	Yes
Luton	No	Yes	Yes	Yes	No	No
Mamhead	Yes	No	Yes	No	No	No
Netherton	No	No	No	No	No	No
Olchard	No	No	No	No	No	No
Pathfinder Village	No	No	Yes	No	Yes	Yes
Powderham	No	No	Yes	No	No	Yes
Shillingford St George	Yes	Yes	Yes	No	No	Yes
Shillingford Abbot	No	No	No	No	No	No
Teigngrace	No	Yes	Yes	No	No	No
Torbryan	No	No	Yes	Yes	No	No
Trusham	No	Yes	Yes	Yes	No	No
Woodland	Yes	No	Yes	Yes	No	No

Figure 11: Summary of Undefined Settlements key services

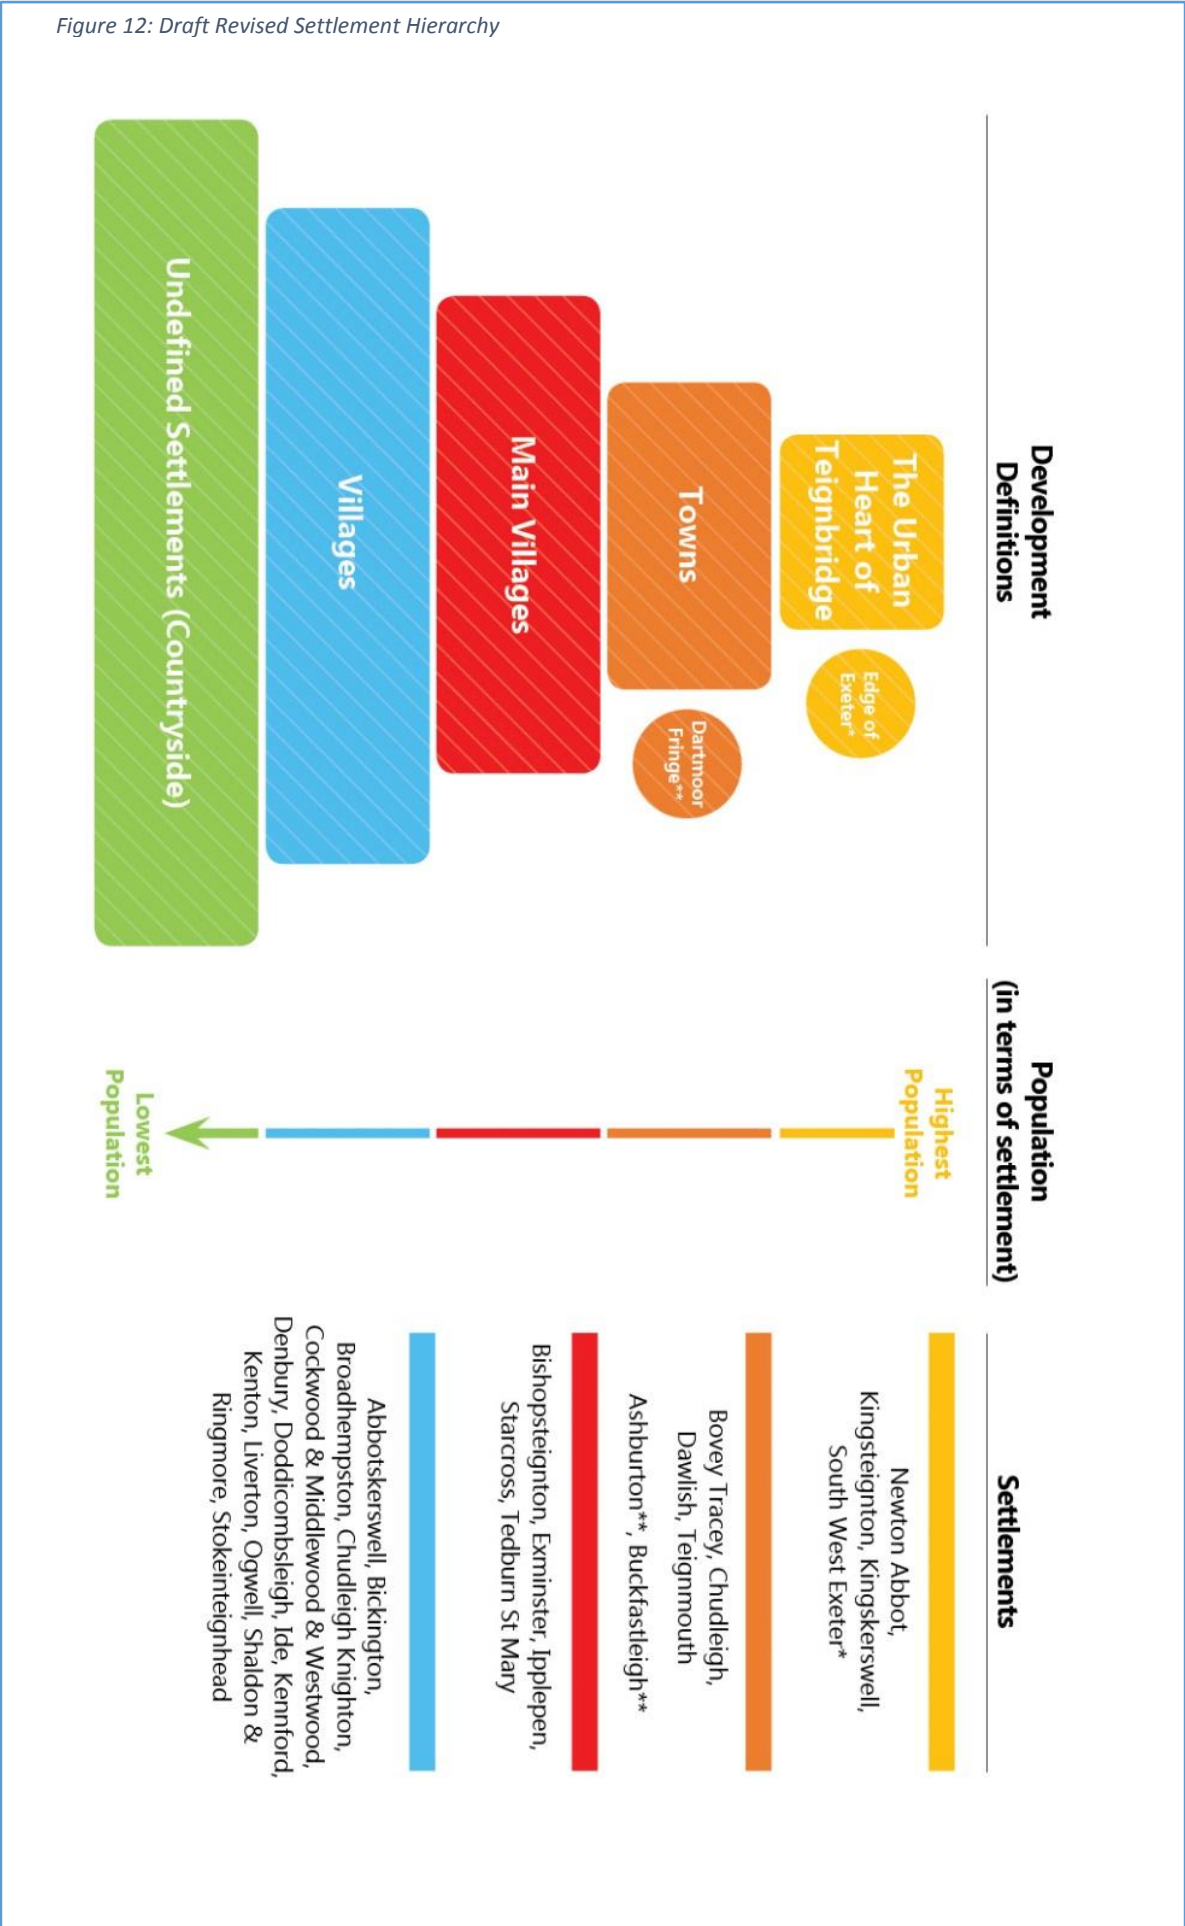

5.56 All of the villages with the exception of Pathfinder Village lack access to a local shop to provide day to day convenience goods such as bread and milk within a reasonable walking distance. They also lack higher order services such as schools and doctors and must rely on larger settlements to serve these needs. A selection of the settlements have access to superfast broadband but generally broadband speeds are lower than other villages in the settlement hierarchy. Access to these settlements is primarily via rural roads and they lack a daily public transport option. They have low levels of self-containment and are considered the least sustainable settlements in the District.

5.57 This Settlement Hierarchy Review recommends that the above 25 settlements with their more limited role and function than the urban area, towns, main villages and villages remain as undefined settlements within the countryside where development is restricted.

5.58 These settlements have their role and function defined below:

A cluster of dwellings situated within the rural landscape with few to no services creating a near total reliance on larger nearby settlements to meet the needs of residents. These settlements serve a residential and agricultural purpose and most are accessible via rural roads only.

Figure 12: Draft Revised Settlement Hierarchy

Defined Villages		
Abbotskerswell	None	None
Bickington		Traffic Free Cycle Route a short distance north of Village under the A38 which links with Sigford.
Bishopsteignton	None	None
Broadhempston	None	None

Chudleigh Knighton	Nearly links to Route 28	No cycle route for short southern section of B3344 but then links to traffic free cycle route which links Heathfield and into Route 28 to Bovey, Teigngrace and Newton Abbot.
Cockwood/Middlewood & Westwood	2	Traffic free cycle route to Dawlish, Dawlish Warren, Starcross into Topsham and joining route 34 into Exeter. Some on-road sections between Starcross and Powderham and very small sections within Dawlish Warren, Cockwood and Starcross settlements. Goes past Starcross and Dawlish Train stations and the Ferry over the Exe- seasonal
Denbury	None	None
Doddiscombsleigh	None	None
Ogwell		Bridleway from Mill Lane in East Ogwell northward to an Advisory Cycle Route in Mile End, Newton Abbot. River Forde maybe unpassable at times. Unsurfaced track.
Exminster	Links to Route 2 & 34	Advisory Cycle Route around Redaway Drive, a short distance from a traffic free cycle route northward & Eastward linking into Route 2 & 34 into Exeter and down to Dawlish.
Ide	n/a	Traffic free cycle route over Ide lane Bridge to advisory cycle route along Balls Farm Road, joining Traffic free cycle route into Exeter and Marsh Barton
Ipplepen	None	None
Kennford	None	None
Kenton	Footpath leads to route 2	Good footpath leads to Route 2 to Exeter and Dawlish
Liverton	Links into Route 28	Advisory Cycle Route runs eastward (North of Coldeast) linking into Traffic Free Cycle Route to Heathfield connecting to route 28 into Bovey, Teigngrace and Newton Abbot.
Shaldon/Ringmore	None	None
Starcross	2	Traffic free cycle route to Dawlish, Dawlish Warren, cockwood, into Topsham and joining route 34 into Exeter. Some on-road sections between Starcross and Powderham and very small sections within Dawlish Warren, Cockwood and Starcross settlements. Goes past Starcross and Dawlish Train stations and the Ferry over the Exe- Seasonal
Stokeinteignhead	None	None
Tedburn St Mary	279	Signed Cycle Route on-road to Cheriton Bishop, Whitestone, Exeter, Whiddon Down.
Towns		
Dawlish	2	Traffic free cycle route to Dawlish Warren, Cockwood, Starcross into Topsham and joining route 34 into Exeter. Some on-road sections between Starcross and Powderham and very small sections within Dawlish Warren, Cockwood and Starcross settlements. Goes past Starcross and Dawlish Train stations and the Ferry over the Exe- seasonal
	N/a	Traffic free cycle route combined with advisory cycle route join community college as ringed cycle lane around edge of the Warren and linking Dawlish- runs past Shutterton Industrial Estate.

Dawlish Warren	2	Traffic free cycle route to Dawlish, Cockwood, Starcross into Topsham and joining route 34 into Exeter. Some on-road sections between Starcross and Powderham and very small sections within Dawlish Warren, Cockwood and Starcross settlements. Goes past Starcross and Dawlish Train stations and the Ferry over the Exe. Electric Bike & Cycle Hire Facility
Teignmouth	None	None
Bovey Tracey	28	Traffic Free cycle route to Newton Road (south end of Bovey) to Newton Abbot. North end of Bovey can access using the signed cycle route- 272.
	272	Signed Cycle route on-road through Brimley, Ilsington, Ashburton, Buckfastleigh
Chudleigh	n/a	Traffic Free cycle route from B3193 (over A38) to Lakeside Village- No underpass.
Ashburton	272	Signed on road cycle route- 272 through Brimley, Ilsington, Bovey Tracey and Buckfastleigh
Buckfastleigh	272	Signed on road cycle route- 272 through Brimley, Ilsington, Bovey Tracey and Ashburton
Urban Area		
Newton Abbot	Route 28	Advisory Cycle route runs westward through Broadlands and Mile End linking with Ogwell Mill Road Bridleway- unsurfaced track. Traffic- free cycle route northward (route 28) to Teigngrace, Heathfield and Bovey- small sections as Advisory cycle route. Advisory cycle route runs southward into Brunel Industrial Estate and down near Forde Park. Traffic free cycle route runs from Newton Abbot Station to Kingskerswell (northern tip).
Kingskerswell	n/a	Traffic free cycle route to Newton Abbot Train station along Torquay Rd (A380)- stops at north end of Kingskerswell into a on-road cycle lane down Torquay Road.
Kingsteignton	Links to Routes 2 & 28	Advisory Cycle Route loops around settlement along Rydon Rd, Longford and Ley Lanes and Clifford Avenue. These link with a traffic free cycle route to the south of the settlement which links to Routes 2 and 28 in Newton Abbot to Teigngrace, Heathfield, Bovey and Coffinswell.

Standard, superfast and ultrafast denote different broadband speed categories:

- Standard broadband has download speeds of less than 30Mbps;
- Superfast broadband has download speeds between 30Mbps and 300Mbps;
- Ultrafast broadband has download speeds of greater than 300Mbps;

The availability icons mean:

- **Green** = broadband packages in this category are available
- **Amber** = broadband packages in this category are available to some, but not all premises in the selected postcode
- **Red** = broadband packages in this category are not available

A range of postcodes taken around the settlement's main built form to get an idea of average connection type and speeds throughout the settlement- not fully representative of all postcodes in the settlement

Standard, superfast and ultrafast denote different broadband speed categories:

- Standard broadband has download speeds of less than 30Mbps;
- Superfast broadband has download speeds between 30Mbps and 300Mbps;
- Ultrafast broadband has download speeds of greater than 300Mbps;

The availability icons mean:

- **Green** = broadband packages in this category are available
- **Amber** = broadband packages in this category are available to some, but not all premises in the selected postcode
- **Red** = broadband packages in this category are not available

Standard, superfast and ultrafast denote different broadband speed categories:

- Standard broadband has download speeds of less than 30Mbps;
- Superfast broadband has download speeds between 30Mbps and 300Mbps;
- Ultrafast broadband has download speeds of greater than 300Mbps;

The availability icons mean:

- Green = broadband packages in this category are available
- Amber = broadband packages in this category are available to some, but not all premises in the selected postcode
- Red = broadband packages in this category are not available
