Teignbridge Town Centre Health Checks Chudleigh

Services

Along with the retail offer, town centres provide basic services for local residents. In 2018, Chudleigh hade most, but not all, of the main services as set out in the TDC Teignbridge Settlement Hierarchy Review. The town remains without a bank, cycle routes, a railway station and a secondary school. The review also found that the town is now deprived of significant local employment opportunities within a 5km radius. No changes have been recorded between 2018 and 2019.

Use Class

Use classes indicate what a particular building may be used for¹. The traditional purpose of a town centre has been geared towards retail (A1), covering shops, hairdressers,

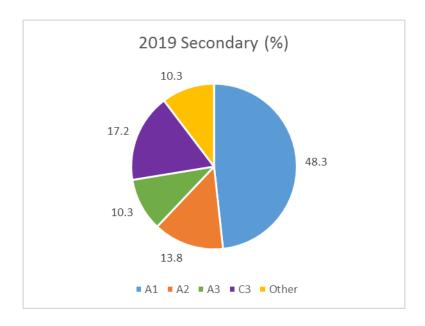

¹ A list of use classes can be found at: Planning Portal

showrooms, etc. The following figures are the number of ground floor frontages by use type, taken from the TDC Authority Monitoring Report dataset.

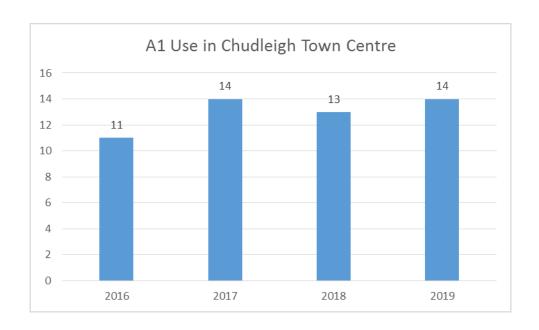

Town centres normally feature primary and secondary shopping areas, with the primary area encompassing the core retail area and the secondary area usually having greater variety of use. Chudleigh does not have a core retail (primary) area, so town centre frontages are analysed at a secondary level.

Secondary	A1	A2	A3	A4	A5	C3	D1	D2	S/G	TOTAL
2016	11	1	2	1	1	0	1	0	1	18
2017	14	3	3	2	1	4	1	0	0	28
2018	13	3	3	1	1	3	1	0	0	25
2019	14	4	3	1	1	5	1	0	0	29

The figures above show that retail is still the most popular use in Chudleigh town centre, with 3 additional frontages being recorded from 2016 to 2019. Other A-uses have also seen an increase, along with the addition of 3 C3 (dwelling) uses. As a result, despite the increase in A1 units, the percentage of units for A1 use has decreased from 61.1% in 2016 to 48.3% in 2019.

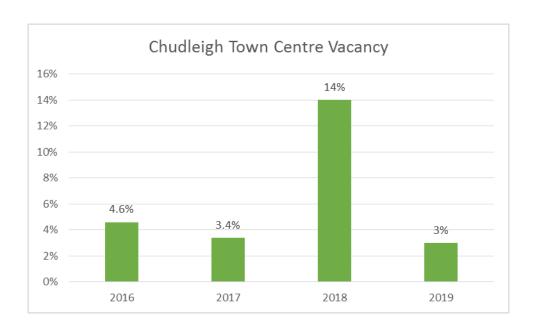

When analysing percentages, Chudleigh town centre appears to have a good diversity of usage. These figures do not include vacant units, which will be analysed separately.

Vacancy

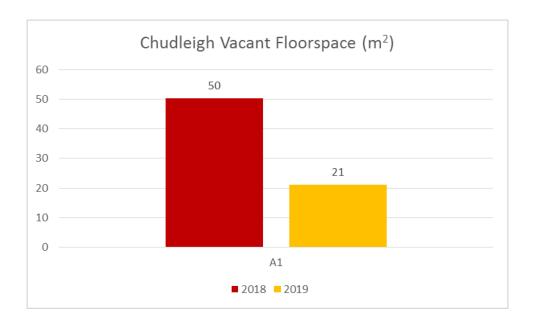

Vacancy rates are a key indicator of a town centre, demonstrating the attractiveness of a town to both retailers and customers. In the first half of 2019, the national average for GB town centres stood at $11.7\%^2$. Due to the smaller number of units in Chudleigh town centre, a small number of vacancies can significantly increase the vacancy percentage. These figures have been taken from the TDC Authority Monitoring Report dataset.

The number and percentage of vacant units does not reveal the amount of vacant space within those units. <u>Valuation Office</u> data for the specific vacant properties in Chudleigh shows that in 2018 (the earliest data available), the total amount of vacant A use

² This figure has been taken from LDC's GB Retail and Leisure Market Analysis H1 2019 Update: https://www.localdatacompany.com/download-report-h1-2019

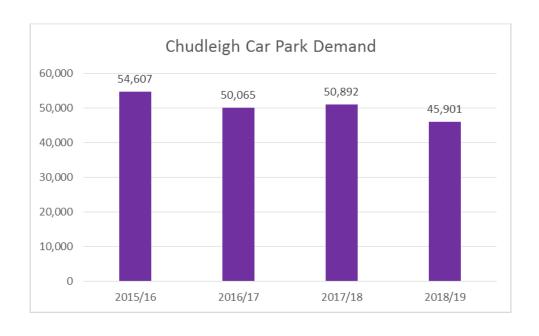

floorspace was 50sqm, decreasing to 21sqm in 2019. These figures do not include vacant space within units with an active use.

Car Parking

Along with those who walk into town or catch public transport, many will arrive into the town centre by car, requiring a parking space. The following statistics analyse the amount of parking tickets purchased in Teignbridge District Council car parks close to the town centres.

The car park analysed is the Chudleigh Car Park on Market Way. On-street, private and out of town parking is not included, nor are those with parking permits.

Figures appear to be steadily decreasing, down almost 16% between 2015/16 to 2018/19. The significant drop in tickets purchased in November 2016 led to the lower 2016/17 figure, this was due to district wide ticket machine upgrades.

Crime

Crime maps available at <u>Devon and Cornwall Police</u> allow users to track the quantity of reported crimes within a customisable area. The town centre area for Chudleigh³, as defined in the Local Plan, has comparable annual data from 2016.

Year	Number of reported crimes
2016	24
2017	22
2018	29
2019	16

The most frequent crimes are anti-social behaviour, criminal damage and arson, and shoplifting.
